

What is it?

In 2012, ECTAC launched the Exceeding Expectations (E2) Project. Each year, using the FDOE School Grade database, an ECTAC analysis team identifies Title I schools that are showing significant progress in improving student achievement. Schools with 50% to 100% of students who qualify for free or reduced lunch are identified. Schools are then visited by a team of ECTAC members. After careful review of data and notes from observations and interviews that occurred during our site visits, schools are selected as either a Finalist or Award School.

- ◇ Presentations - During breakout sessions, Award Schools present best practices they feel have had a direct effect on their student achievement.
- ◇ Award Ceremony - Award Schools are celebrated at a red carpet event (included with sponsorship).

“This conference offered us so many ideas and avenues to help my school get on track!”

ECTAC provides technical assistance to a network of 47 school districts across the state of Florida regarding selective programs contained in the Elementary and Secondary Education Act (ESEA).
