AVID

National Demonstration School since 2009.

Howard Middle School is a Magnet School for the Visual & Performing Arts.

70% of Howard students are in Advanced or Honors courses!

We offer:

- ★ Tutoring for ALL students from 8:30 am until 5:00 pm every day!
- ★ An Academic Success Policy that does not accept zeroes!
- ★ Zero period classes to give our students both remedial & enrichment opportunities!

Our Faculty is fully committed via:

- ★ Professional Learning Communities (grade level & department).
- ★ Data Chats to drive instruction and check progress.
- ★ Being student-centered, student-friendly, and student-driven.
- ★ Being risk-takers!

Administration provides the support via:

- ★ Empowering teachers to think outside of the box!
- ★ Holding teachers responsible for results!
- ★ High expectations of rigor!
- ★ Removing barriers to instruction!

What does this mean?

- ★ Strong student achievement!
- ★ Low teacher turnover!
- ★ Wait lists each year for magnet openings!
- ★ A school-wide culture that is positive & energetic!

Howard MS loves Social Media!

Facebook and Remind101 are our favorites!

We use social media to:

- Extend learning beyond the school day.
- Enhance communication between home and school.
- Provide students opportunities to help each other.
- Get parents directly involved in learning.

Good luck on your Science FCAT tomorrow! Eat breakfast and get some good rest tonight. Bring snacks because lunch is not until after 2:00. We will take the same break for eating that we did on Monday in between sessions.

On the word sort for the word upset, I know it can mean either angry or sad. Does it matter which one?
Like · Comment
Lauren Truong likes this.
Liam Anderson When we checked it, it was angry.

Destiny Rae Chesser Thanks
April 15 at 9:33pm · Like
Kristen Raulerson Whipple I would have accepted either because I feel the same way about that word, but officially it is listed under angry. Thanks Liam.
Good digging Destiny.

INB pages 112-113

Review

1. Ms. G weighs 500 lbs. What would be her mass on Jupiter?

2. Which has more PE?

3. Sink or Float? (Draw a boat) (Label) (Write) (Calculate)

Discrepancy 2/18

Why do things sink or float?

Item	Mass	Volume	Density	SP
Apple				
Rock				
Steel				
Aluminum				
Ice				
Oil				
Water				

Prediction Actual

Ms Raab on 13 I understand the variable part but im having trouble with finding the constant

Like · Comment

Heather Raab There may not be one. It's a very similar equation to #12

January 13 at 7:51pm · Like

Mackenzie Ann Buzzelli I know Ive been on 12 for like a half hour I see what I need to do and Ive figured out the inbetweens in the y part but cant figure out how to write what im thinking

January 13 at 7:54pm · Like

Heather Raab Write words instead of an equation and we'll straighten it out in the morning

January 13 at 8:12pm · Like

Heather Raab Also, remember that the equation is the relationship between x and y (what do you do to the x's to get to the y's), NOT the difference between each x.

January 13 at 8:13pm · Like

Mackenzie Ann Buzzelli Ok and I know im still trying to find what works. Thanks for your help!! try to come in early to get help.

January 13 at 8:17pm · Like

Heather Raab Sounds good. I'll be there early tomorrow to get the lab ready.
